

Sydelle Moore

Office Sought – FIRST VICE CHAIR

ADDRESS: 813 20th St NE

YEARS OF RESIDENCY IN WARD 5: 7

EMAIL ADDRESS: sydelle202@gmail.com

Tell us something about yourself:

I'm an active community member who currently serves as the Vice-Chairperson of **ANC 5D** as well as president of the **Langston Civic Association**. I currently serve as the Ward 5 Democrats' Membership Co-Chair conducting outreach events and working to engage and educate residents across Ward 5. As a civic leader, I have been extremely effective in garnering resources for my community to combat the high murder rate that had previously gripped my area through strategic partnerships and a health-based approach to ending violence. I have also engaged on issues like affordable housing, criminal justice reform, sustainable energy production, urban farming and employment equity. I am very well-versed in some of the issues impacting the most vulnerable citizens in our ward and have been a staunch advocate not only for my neighbors' rights and concerns, but their dignity and hope for a better future.

Why are you seeking to serve as an Officer of the Ward 5 Dems and what would you like to see accomplished during your tenure?

A well-informed electorate is a prerequisite for a healthy democracy. The best way for the Ward 5 Democrats to move forward as an organization is by engaging residents on the issues that matter to them and demonstrating how voting can positively impact people's daily lives. It is my goal to bring more citizens into the process as registered Democrats in Ward 5, so that we can have a lasting impact on the issues that matter to us. As First Vice-Chair, I would spearhead efforts by the committees under my purview to do more face-to-face interactions with potential voters, conduct educational speaking and debate tours across the ward and work to engage disaffected voters on key issues that matter to them through an ongoing series of events organized around important topics like healthcare, crime, education and affordable housing.
